251UB40EUC1	Thermal Binding Machine 60	1
251UB84EUC1	Thermal Binding Machine 8.4	1

Super-strong permanent bond. The crimping movement removes additional space for guaranteed binding quality. With our binding systems you can crimp the spine for an optimal fit - to match with the thickness of the document. A patented innovation unique on the market. To be sure that no pages will get lost from the bundle and your important message remains convincingly powerful.

BEFORE

AFTER
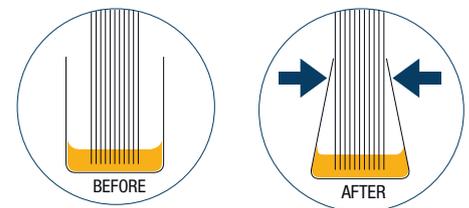

Thermal Binding Machine 8.2

Binding or Automatic crimping documents up to 340 sheets.

Peleman's patented binding machines are easy-to-use devices to present all important documents neatly, such as company policy, labour regulations, offers, proposals etc.

Features

- Dimensions: 480 x 295 x 390 mm
- 2 binding compartments (2 x 25 mm)
- 1 automatic crimper
- From 1 - 340 sheets
- 2 cooling racks
- Weight: 11,52 kg
- 220-240 V~50 Hz
- 2 x 175 W
- CE-certified

PELEMAN®
Because It Matters

Thermal Binding Machine 8.1

Binding or Automatic crimping documents up to 120 sheets.

The Thermal Binding Machine 8.1 is the latest technology for easy binding of documents. It combines the traditional Resin Steel Binding with a newly developed crimping element.
Designed for office use: flexible covers on an easy-to-use machine. The machine binds 1 to 120 sheets. Bind, crimp and cool in seconds with just one machine.

Features

- Dimensions: 435 x 270 x 380 mm
- 1 binding compartment (25 mm)
- 1 automatic crimper
- From 1 - 120 sheets
- 1 cooling rack
- Weight: 8 kg
- 220-240 V~50 Hz
- 1 x 175 W
- CE-certified

Thermal Binding Machine 120

Binding or manual crimping documents up to 120 sheets.

The **Peleman Binding Machine** is a simple or fast solution for binding and crimping documents, up to 120 sheets.

Features

- Dimensions: 490 x 335 x 345 mm
- 1 binding compartment (25 mm)
- 1 manual crimper
- From 1 - 120 sheets
- 1 cooling rack
- Weight: 8 kg
- 220-240 V~50 Hz
- 1 x 175 W
- CE-certified

Thermal Binding Machine 60
Binding documents up to 60 sheets.

Peleman's binding machines are easy-to-use devices to present all important documents neatly, such as company policy, labour regulations, offers, proposals etc.

Features

· Dimensions: 415 x 215 x 80 mm
· 1 binding compartment
· 2 cooling racks
· Weight: 626 gr
· 220-240 V~50 Hz
· 1 x 175 W
· CE-certified
· From 1 - 60 sheets
· Perfect for a small office

Thermal Binding Machine 8.4
Binding documents up to 340 sheets.

Designed for heavy users Thermal Binding Machine 8.4 allows you to bind up to 16 documents at the same time on 4 heating compartments.

Features

· Dimensions: 480 x 295 x 390 mm
· 4 binding compartments (4 x 25 mm)
· From 1 - 340 sheets
· 1 cooling racks
· Weight: 11,52 kg
· 220-240 V~50 Hz
· 4 x 175 W
· CE-certified

THERMAL BINDING MACHINES
BINDING SYSTEMS

Adding small handy details can create great added value to your finished product.
Think penholders, business card pockets and a lot more. Going the extra mile always works to please your target audience. By adding these little details, you make people feel special and appreciated. Thumbs up. Way to go!

LAY-FLAT FLEX COVER
BINDING SYSTEMS

Crystal Flex Cover is the right solution for any document presentation. They have a crystal-clear sheet on one end and a matt-frosted finish on the other side. It's your choice of impression. The Plus Flex Cover has an extra sheet of anti-static paper on the glossy side of the cover.

PLUS FLEX COVER

The Plus Flex Cover has an extra sheet of paper on the glossy side of the cover, "OK Paper". The OK paper is actually the first page during the binding, crimping and cooling process. It makes sure that the real first page of the presentation doesn't get the static electricity of the Crystal sheet, and glides into the liquid resin.

V-PAPER
BINDING SYSTEMS

The combination of three techniques, creasing, folding and pressing, twists the paper near the edge, ensuring that bound documents of any size lay completely flat.

Each sheet is marked with a special ink, protecting your documents against counterfeit and forgery fraud and allowing you to customise V-Paper with your own logo or message.

The high-quality V-Paper allows you to print on both sides of the sheet without compromising on quality, reducing your paper consumption by as much as 30 percent.

The V-Paper Tower now brings you the perfect solution which ensures that every single sheet of documents (of any size) – from short presentations to thicker reports – lays flat. The V-Paper Tower makes a double-fold near the edge of every sheet, which can then be bound together with triple staples, perfect binding machines or thermal binding systems. The result is a lay-flat book which is easy to read and write in.

In line with the requirements and preferences of today's users, the V-Paper Tower has been designed to create a double-fold on every sheet, turning any paper into lay-flat paper.
Your customers always expect the best possible paper and printed presentations from you.
From now on, you are also able to offer them the best lay-flat finishing solution.

2518UPAEU01	V-Paper TOWER EUR VERSION
2518UPIFEED	V-PAPER TOWER INTEGRATED TOUCHLINE FEEDER
2518UPSMFEE	V-PAPER TOWER SEPARATE MISTRAL 45 FEEDER
2518UPSTFEE	V-PAPER TOWER SEPARATE TOUCHLINE FEEDER

Features

·   The V-paper Tower is an automated system that puts a double-fold in every sheet.
·   6.000 A4 sheets / per hour.
·   Grammage / mic2: minimum 70, maximum 250 of any paper type
·   Sheet size: max. 320 mm length and width.
·   Electrical power by 220 Volt: 1.000 Watt.
·   No warm up time, high efficiency.
·   Small footprint:
    length 1,2 m x width 0,8 m x height 2,5 m

The V-Twister has been designed to turn your double-sided printed or printable paper into lay-flat pages, one by one. Through a single-step process, our innovative technology forms the paper fibres for each sheet, creating a supple hinge at the spine of the book. This makes your publication lay open effortlessly.

06/02/21

The Print-In technique is a process to print nameplates or photos onto metal. These plates can be used for identification, personalisation and signage. The outcome is a weatherproof, UV-resistant and scratch-free product. For this process you need a Print-In printer and Print-In paper to create a base layer. This baselayer will then be capable to transfer the ink during the printing process via the Print-In press machine.

Heat Resistant Gloves

Protecting your hands from intense temperatures has never been easier! Just slip on these safety gloves made of special heat-resistant cloth and you're ready to start working with the print-in presses. Think - safety first, safety always!

The Print-In technique is a unique process to print nameplates or photos on metal.
These plates can be used for identification, personalisation and signage.
They are weather- and UV-resistant, and scratch-free. Ideal for outdoor use.

PERSONALISATION SERVICES

Create personalised covers and more...

Window cutting
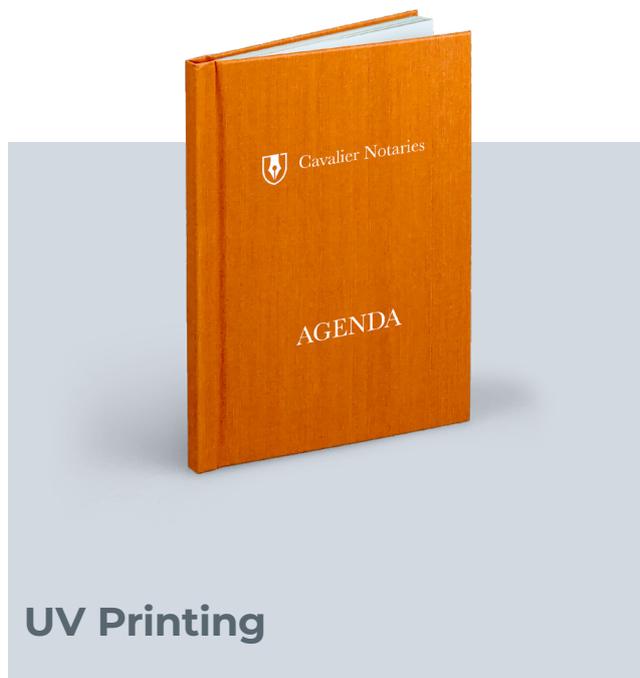

UV Printing

PERSONALISATION SERVICES

Window

Have you not yet decided what title or message you want for your presentation? No problem.
Simply order your favourite cover with cut-out window and use the first page of your document to display the title or message.

Starting from 10 pieces.
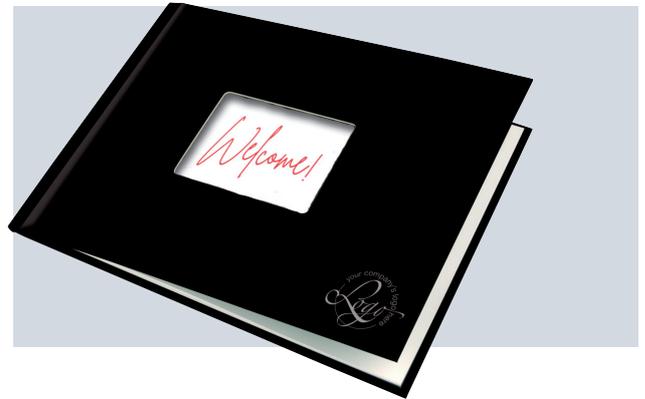

Golden or silver corners

Need some extra durability? Or want to add that golden bling effect, to make it more chic? Adding metal corner guards will do the trick both ways. Enhancing longevity and adding a classy detail.

Starting from 10 pieces.
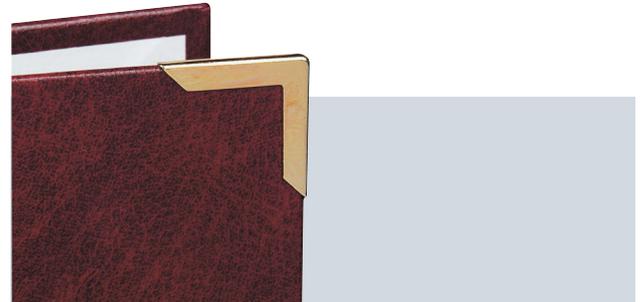

Hotfoil

Hot foil is a printing method of which foils are transferred to a surface at high temperatures. An easy way to make your products stand-out, especially when using metallic foils. Ideal to personalise your books, contracts, notebooks, agenda, and much more. A technique that gives a more luxurious finish.

Starting from 20 pieces.
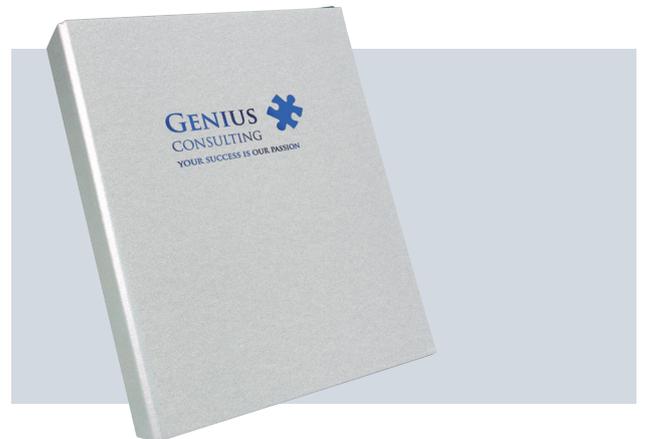

Silkscreen

Ideally suited for bold graphic designs. It's excellent for printing on hardback clothbound cover books and gift boxes. The inks used are very durable and the opaque colours are extremely vivid, so your personalisation will stands out likebreal Pop Art work. BANG! POW! BOOM!

Starting from 250pieces.

Transferprint

Transfer printing works by using a specific time duration, temperature, and pressure to apply the transfers. Under the effect of heat, the ink detaches and fixes itself on the product. A versatile form of personalisation, suitable for rich detailed high-quality full-colour printing - on a wide range surfaces. Because details matter.

Starting from 1 pieces.

Flat Bed Foil Printer

Allows you to personalise your books, notebooks, agenda, contracts, with foil directly printed from a digital file. Instant personalisation, endless possibilities. Print on any smooth flat surface in a variety of colours. You and your work will always stand out.

Starting from 1 pieces.

UV Printing

Almost every product can be personalised. Your customer's logo or specific design can be beautifully printed with UV printing on pretty much any material. The ink actually becomes part of the object itself. That makes it weatherproof, UV-resistant and scratch-free. Perfect for indoor and outdoor advertising. Come rain or shine!

Starting from 1 pieces.
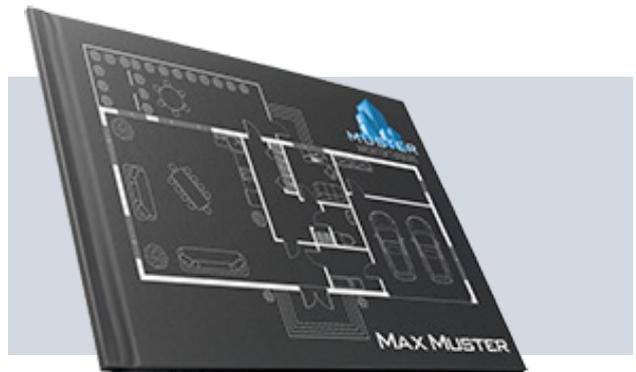

Peel & Stick Sheets

This ready-to-use solution has a self-adhesive area that allows you to glue any type of print directly into our product. No sticky situation with spilled glue for you! A smart and unique innovation that will simplify your life. Print out your photos and create your very own photobook / panel in no time. The ideal gift for someone very special.

## Full colour Thermal Hard Cover A4 Portrait

Showcase style and corporate identity in a professional way and turn printouts into memorable presentations. Available from just 1 piece, these custom Thermal Hard Covers are ideal for all sorts of applications from company presentations and brochures to reports and more. Get creative and create elaborate designs that will distinguish your products and services from the competition.
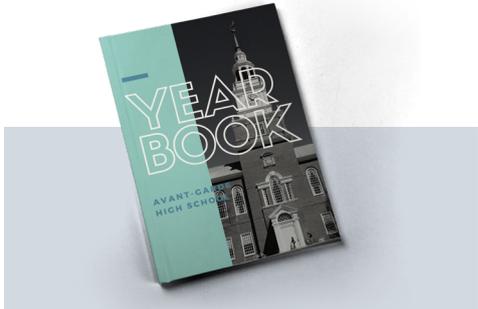

Full colour Thermal Hard Cover A4 Landscape
- Mirror sheet white

For many writers, students, architects and programmers the ideal notebook is ... landscape orientated instead of portrait. Why? Their chalkboards, smart boards and laptops are oriented in the same way. So when seamlessly collaborating together they're using the same orientation. No leftover spaces. No voids occur. So smart! Think outside the box and try it yourself.
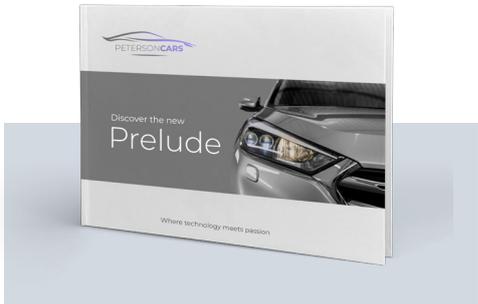

Full colour Photo Book A4 Landscape
- Mirror sheet black

Give your photobooks a professional finish and high quality look with a Full colour Photo Book A4 Landscape. Our patented thermal steel binding system ensures a solid, durable bind. Cherry on top is the fully customisable cover that will turn this book into a unique piece of art. Everybody will be impressed.
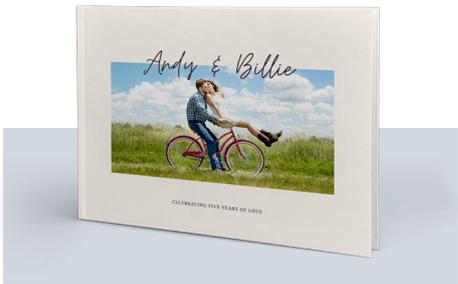

Full colour Thermal Hard Cover A3 Landscape

Bigger. Better. Bolder. This A3-size landscape design is a hefty eyecatcher - that will stand out in any place. Impossible to ignore. Showcase your style and identity in a professional way, with these customisable full colour hard cover, that will turn your printouts into memorable presentations.
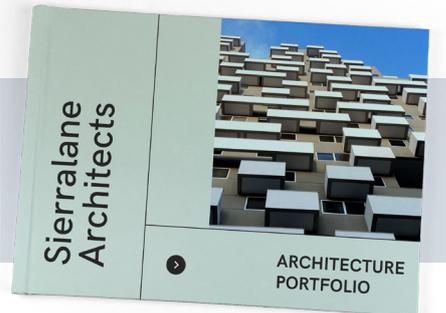

PERSONALISATION SERVICES

Full colour Thermal Hard Cover A5

Sometimes - small gifts are better. This is the baby in our full colour thermal hard cover collection, but a true valuable gem - that makes everybody's heart melt. Particularly beautiful and very portable. Think creative small gifts that make a big impact.

Full colour Soft Cover A4 Portrait
(available in spine 15, 40, 60 or 80)

Sometimes we need to move fast and travel light. Our soft cover is your ideal companion for professional, elegant and practical covers. Create powerful branding tools with your own corporate design or artwork of your choice. Premium looks without the weight of a hardcover. Available with glossy, matt and soft-touch finish to leave a lasting impression on your customers and prospects.

PocketFolder plus A4
(available in spine 15, 40, 60 or 80)

Are you planning on going prospecting, arranging an important meeting or do you want a stylish way to present your documents? Alternative to the cardboard tender folders. On the front and back of the cover you can find pockets to add extra documents. Two cuts in the pocket folder plus where you can insert your business card. Impress your customers and prospects with this new personalised presentation folder.

Full colour Video Book A4

Videobook is the best of two worlds joined together in one compact portable medium. It combines a personalised printed document with moving image and sound. It's an incredibly contemporary way of grabbing your customers' attention by combining multiple senses. Convenient to carry, unique product that people want to keep forever.

Full colour Video module A5 Landscape

Bring your story to life. Easy to add video in the presentation, using our practical A5 Landscape kit. Beautiful full colour printing will make this a high-impact communication tool. You can include multiple videos that play with the press of a button.

PERSONALISATION SERVICES
